RETI has 92 researchers, or "fellows," as of August 2002. Fellows are recruited from such realms as government agencies, research organizations, universities, NGOs and NPOs. There are basically four types of fellows: full-time fellows, faculty fellows, visiting fellows, and consulting fellows. Faculty fellows participate in RIETI's research activities while continuing their full-time status as university faculty members. Visiting fellows are government officials who continue their full-time duties while contributing to RIETI activities outside their duty hours on an unpaid volunteer basis. Consulting fellows are specialists who offer policy advice or suggestions in certain areas. Within the framework of RIETI's nine research clusters as set forth in its annual plan, each fellow sets his or her own research themes and proceeds on related research projects. To ensure the clarity of individual fellows' views, research results are published under the names of their respective authors.

Status	Name	RIETI Research Themes	As of August 31, 2002
CRO	Manabilia Anti		
President and Chief Research Officer, RIETI	Masahiko Aoki		
Professor, Stanford Institute of Economic Policy Research	aoki-masahiko@rieti.go.jp
