

New Energy and Industrial Technology Development Organization (NEDO)

◆ Activities :

1. Development & Introduction of New energy, Energy conservation and Environment technology
2. R&D on Industrial technology
3. International Cooperation

◆ Position :

Semi-governmental organization

Topic 1

Japan's Strategy for Achievement of GHG Emission Targets a 6% Reduction

▲2.5%	Reduction of CO ₂ , methane and N ₂ O emissions, etc.
▲2.0%	Technology innovation, nationwide efforts
▲0.5%	Reduction of CO ₂ , methane and N ₂ O emissions, etc.
▲3.7%	Sinks, land use, land use change and forestry
+2.0%	Reduction of CFC alternatives (HFC, PFC, SF ₆)
▲1.8%	JI (joint implementation), emissions trade

Topic 2

R&D of Recycling Technology

(Recycling of PET Bottle)
